C-5

ASCENDO

C-5

The C5 monitor is a perfect point-source radiator with ideal semi-spherical dispersion. The chassis-integrated time alignment and the constant voltage filter kernel provides a perfect impulse reproduction. Special technical features such as a switch able position adjustment and the magnetic shielding complete the conception. The result is a monitor ideal for most applications

Technical features

- Perfect point-source radiator
- Ideal semi-spherical dispersion
- Superior time coherence
- Switch able for positioning:
 - Free field
 - Bookshelf / near wall position
- Magnetic shielding
- Extended frequency response
- Zero-phase first order filters with constant voltage kernel
- Very high grade chassis and filter parts

Typical applications

- Two channel stereo (CD/Vinyl)
- Multi channel audio (SACD/DVD-A)
- Home Cinema (DVD-V)

C5 Stand

Options to put up

Technical Data

Monitor C5 / Center C5 MKII

Principle Two way coaxial vented

Dimensions (W/H/D) in cm

C5 22 / 34 / 32.7

C5-Center 44 / 22 / 28.5

Weight 9.1 kg

Frequency range

47 Hz (-3dB) – 25.000 Hz

Power rating

Long Term Power Handling 80 W

Short Term Power Handling 250 W

Impedance 6 Ohm

Sensitivity 87.5 dB / 1W / m

Switch at position (R)

Chassis Shielded COAX

25 mm Neodymium-Fabric-Tweeter

17 cm Woofer with XP cone

Adjustment for placement

Switch able F: Free field

R (B): Shelf (wall)-setup

Finish

Piano lacquer Black / white

other colors on demand

veneer on demand

special dimensions on demand

Distribution

Ascendo GmbH, Hölderlinweg 6

73257 Köngen, Germany

Tel.: +49 (0)711 65 83 56-35

Fax: +49 (0)711 65 83 56-36

mail@ascendo.de, www.ascendo.de

C5 Stand

Material Steel

Height Adjustable

Recommended:

COAX tweeter at ear height

Weight 20 kg+

(depends on filling)

Finish Lacquer

All RAL Colors / matt, gloss, metallic
